Table of Contents

1. [Gestalt Laws](#)
2. [Patient SB Discussion](#)
3. [Color Terms](#)

Gestalt Laws

What are the five gestalt laws? And which of these laws is not like the others?

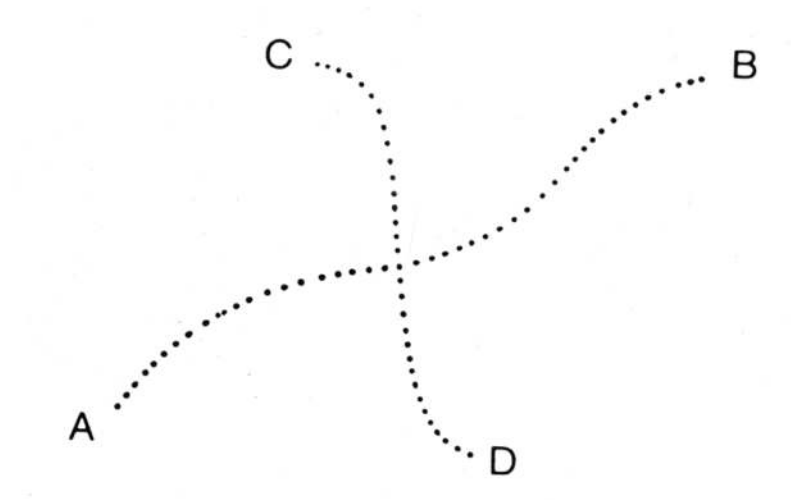

Law of Good Continuity

How do we override the perception of the lines going from A-B and C-D and instead make the lines go from A-C and B-D?

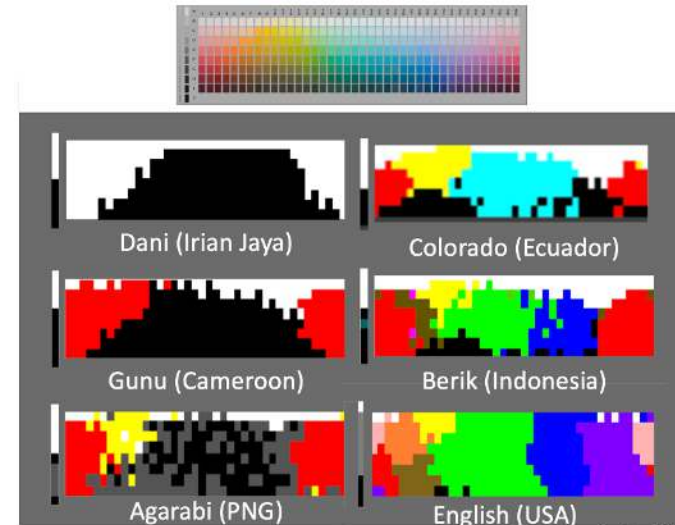

Patient SB Discussion

Who was patient SB? What was special about his vision?

What else would you like to know about SB? How would you test it?

Color Terms

1. How do we determine what color name in English a color term in another language is equivalent to?
2. What cultural factors might increase and decrease the number of basic color terms in a language?
